

# Lab 02a - Manage Subscriptions and RBAC

## Student lab manual

### Task 3: Assign RBAC roles

In the Azure portal, search for and select Azure Active Directory, on the Azure Active Directory blade, click Users, and then click + New user.

## Add role assignment ...

Role • Members • Review + assign

A role definition is a collection of permissions. You can use the built-in roles or you can create your own custom roles. [Learn more](#) 

Assignment type

Job function roles Privileged administrator roles

Grant access to Azure resources based on job function, such as the ability to create virtual machines.

 support request	×	Type : All	Category : All
Name ↑↓	Description ↑↓		
Quota Request Operator	Read and create quota requests, get quota request status, and create support tickets.		
Support Request Contributor	Lets you create and manage Support requests		
Support Request Contributor (Custom)	Allows to create support requests		

## Add role assignment ...

Role Members • Conditions (optional) Review + assign

**Selected role** Support Request Contributor (Custom)

**Assign access to** ☒ User, group, or service principal  
☐ Managed identity

**Members** [+ Select members](#)

Name	Object ID
No members selected	

**Description**

Optional

Select the Role and click Next. On the Members tab, click + Select members and select user account that was just created

## Select members

### Added Role assignment

az104-02-aaduser1 was added as Support Request Contributor (Custom) for az104-02-mg1.

Make sure the new user has access to all Resource groups and All Resources, by signing in with the account in an InPrivate window.

Microsoft Azure

Search resources, services, and docs (G+?)

Home >

Filter for any field... Subscription equals all Location equals all Add filter

0 Unsecure resources 0 Recommendations

No grouping List view

Name	Subscription	Location
cloud-shell-storage-westeurope	Azure Pass - Sponsorship	West Europe
NetworkWatcherRG	Azure Pass - Sponsorship	East US

In the InPrivate browser window, in the Azure portal, search and select Help + support and then click + Create a support request.

In the InPrivate browser window, on the Problem Description/Summary tab of the Help + support - New support request blade, type Service and subscription limits in the Summary field and select the Service and subscription limits (quotas) issue type. Note that the subscription you are using in this lab is listed in the Subscription drop-down list.

[Home](#) > [Help + support](#) >

## New support request ...

1. Problem description   2. Recommended solution   3. Additional details   4. Review + create

Tell us your issue, and we'll help you resolve it.

Provide information about your billing, subscription, quota management, or technical issue (including requests for technical advice).

Summary *	<input type="text" value="Service and subscription limits"/> ✓
Issue type *	<input type="text" value="Service and subscription limits (quotas)"/> ▼
Subscription *	<input type="text" value="Azure Pass - Sponsorship (836f56df-cca0-4866-b552-adbe26a742da)"/> ▼
	Can't find your subscription? <a href="#">Show more</a> ⓘ
Quota type	<input type="text" value="Loading..."/> ⌂

We do not continue with the creation of a new support request as the final step of this task, instead, we sign out from the current user and close the InPrivate tab of the browser.

And we clean up the resources.
